

COMMUTAIR SELECTS MINT TRMS FOR FLIGHT CREW TRAINING MANAGEMENT

Kiel, 18 July 2017 - MINT Software Systems is announcing the signature of a new service agreement with the USA-based airline CommutAir, operating as United Express, for the delivery of the training and resource management system MINT TRMS to enhance their cockpit and cabin flight crew training, planning and qualification management.

“We are extremely happy to welcome CommutAir to our growing user community, and we are excited they decided to entrust their future crew training operations to our market leading, fully web based software solution,” says Frank Vieira Hugger, Director of Sales and Marketing at MINT Software Systems. “CommutAir was looking for a reliable, modern software for the management of their cockpit and in-flight training and by selecting MINT TRMS, they have successfully set the course for the future.”

“Our flight training department had asked to be provided with the best reliable and future-proof training management system available on the market,” explains Justin Conrad, Vice President of Flight Operations at CommutAir. “With MINT TRMS SaaS, we believe we have found the answer to our airline’s requirements. MINT TRMS will be used for the training and qualification management of all our flight crew and will support the current fleet restructuring, which includes training new crews and transitioning our current crewmembers to new aircraft types. MINT TRMS is going to be the backbone of this complex operation and will support the challenges that our airline is facing as we double in size,” he adds.

The all-in-one training and resource management solution, MINT TRMS optimizes and speeds up training, planning, and execution with exceptional scheduling, electronic data gathering and analysis capabilities. This unique platform helps aviation businesses all over the globe to significantly enhance their training efficiency and the day-to-day life of all employees and instructors with the instant online access to their training schedules, electronic forms, learning material and other training related data in the integrated and multifunctional web portal.

The agreement with CommutAir includes the “MINT Premium Edition” for training scheduling, record management, e-grading, e-learning, in-depth reporting and analysis capabilities.

About MINT Software Systems

MINT Software Systems, headquartered in Kiel, Germany, with subsidiaries in Orlando, Florida and Sharjah, UAE and partner companies in Bucaramanga, Colombia and Kiev, Ukraine creates innovative training and resource management solutions used by major aviation players. MINT's SaaS and onsite solutions employ the latest software technology, allowing efficient records and training scheduling for crew, ground and maintenance staff and guarantees trouble-free regulatory compliance with the AQP/ATQP programs of authorities like the FAA and EASA.
